BYOD Enrollment Program

Self-help Installation User-guide for Android Devices

[Version 1.2 – March 21, 2022]

vírtusa

1)   Virtusa BYOD Program

The Virtusa BYOD (Bring Your Own Device) program allows all Virtusa employees to access corporate data and applications from Apple and Android mobile devices using Intune secure Mobile Device Management (MDM) platform.

The program is intended to provide access to Virtusa information whilst keeping your device secure without interfering with your personal information and settings. It also provides you the additional feature of wiping the device in situations where it is lost or stolen.

2)   Prerequisites for Enrollment

- Device OS should be updated to the latest version of Android: 9.0 or higher
- Devices should not be rooted/jail broken
- Devices should not be enrolled with any other Mobile Device Management (MDM) solution
- Minimum of 600 MB free space should be available in the device prior installation
- A Google ID is required, and Wi-Fi connectivity is preferred for enrollment
- Configuration time will take around 15 minutes

3)   Virtusa BYOD Portal

The Virtusa BYOD portal provides a comprehensive view on the MDM solution provided by Virtusa for its employees. This portal will guide and assist employees in the entire journey of enrolling, managing and unenrolling devices. You can access this site by:

- **Scanning the below QR code**

- **Typing byod.virtusa.com on your mobile device browser**
  In addition to the information on default and featured apps available in the program, the BYOD portal is also equipped with videos and guides to assist you in enrolling devices. Before the enrollment process please review the terms of use available in the portal to understand what Virtusa can see and cannot see

4) BYOD (Intune MDM) Enrollment Steps

Step 01: Visit the Virtusa BYOD Portal **<byod.virtusa.com>** via your mobile device

Step 02: Read and accept the **Terms of Service**

Step 03: Tap on 'Start the Enrollment'
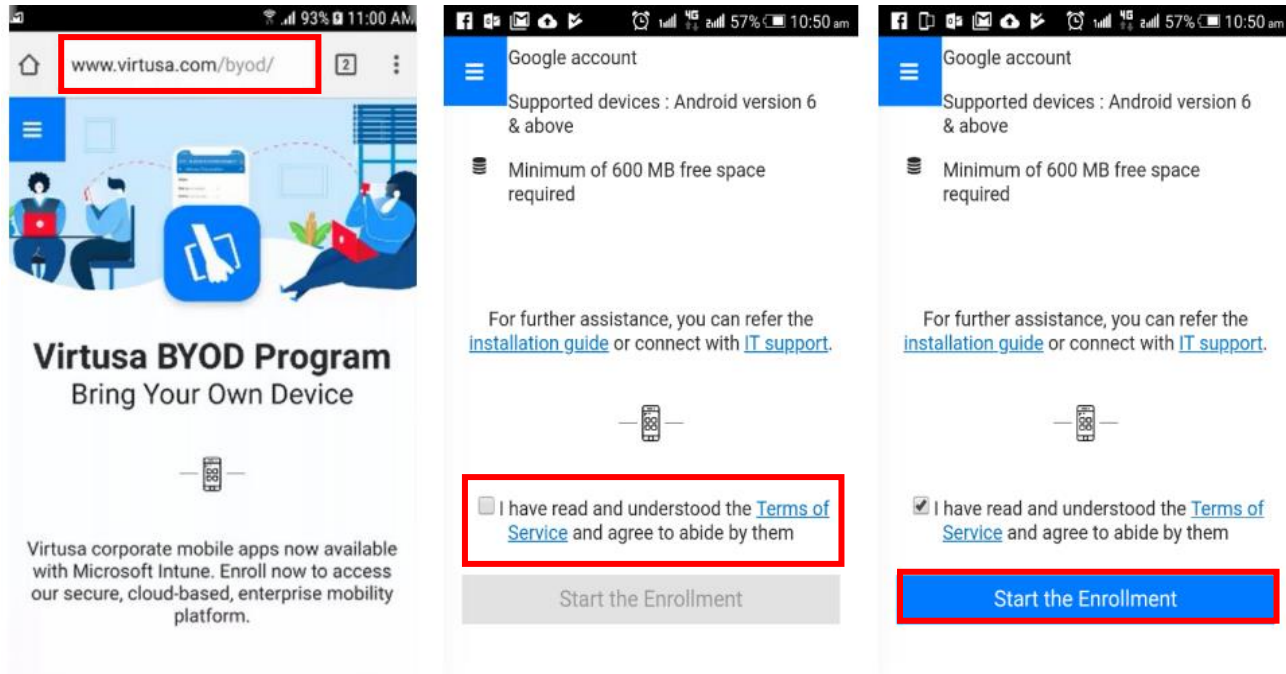

Step 04: Tap on 'Install' once the Company Portal app opens on Play Store

Step 05: Open the Company Portal app once downloaded

Step 06: Tap on 'Sign In'

Step 07: Enter your Virtusa account username (your Virtusa e-mail) and tap on 'Next'

Step 08: Enter your Virtusa account password and tap on 'Sign In'

Step 09: Tap on 'Begin'

Transform the way we work, learn, share and connect.

Step 10: Read and tap on 'Continue' to proceed
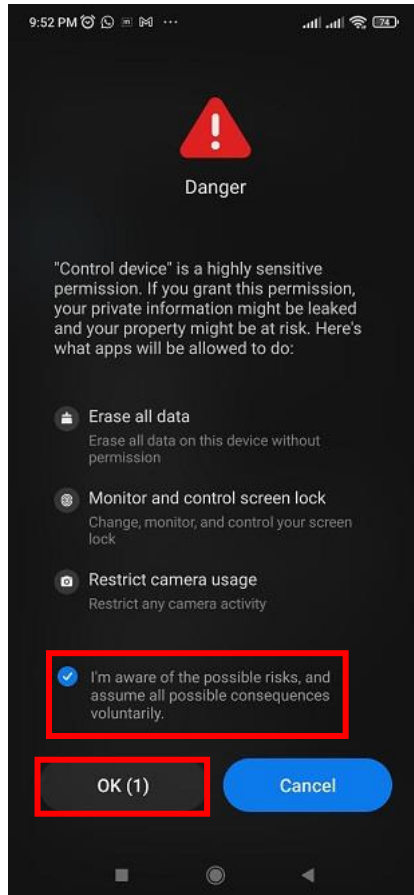

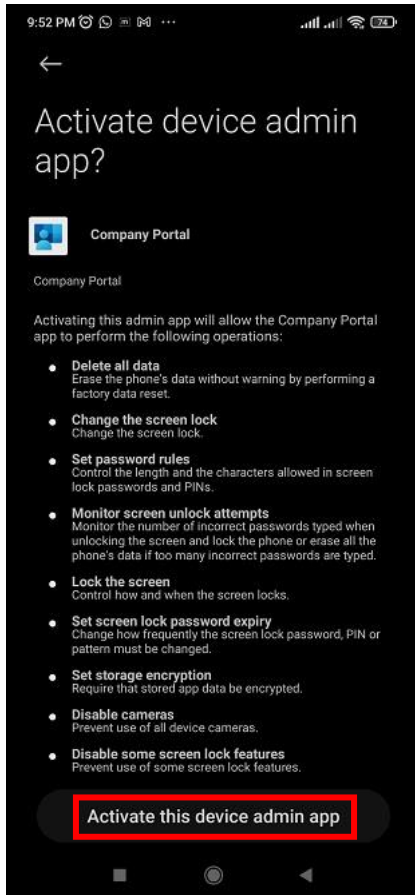

Step 11: Read and tap on 'Next' to proceed further

Step 12: Tap on 'Allow'
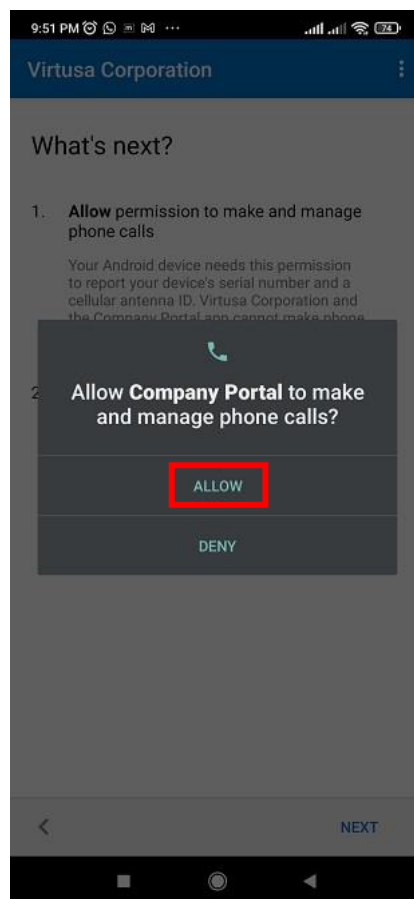

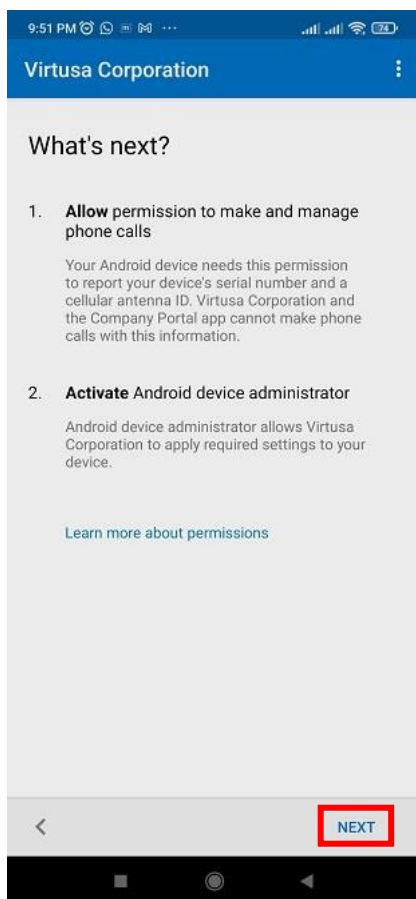

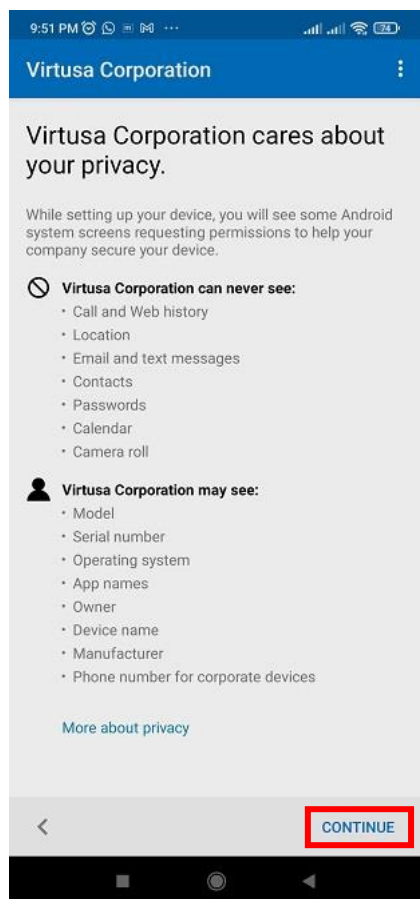

Step 13: Read and tap on 'Activate this device admin app'

Step 14: Tick **I'm aware of the possible risks …** to proceed and tap on 'OK'
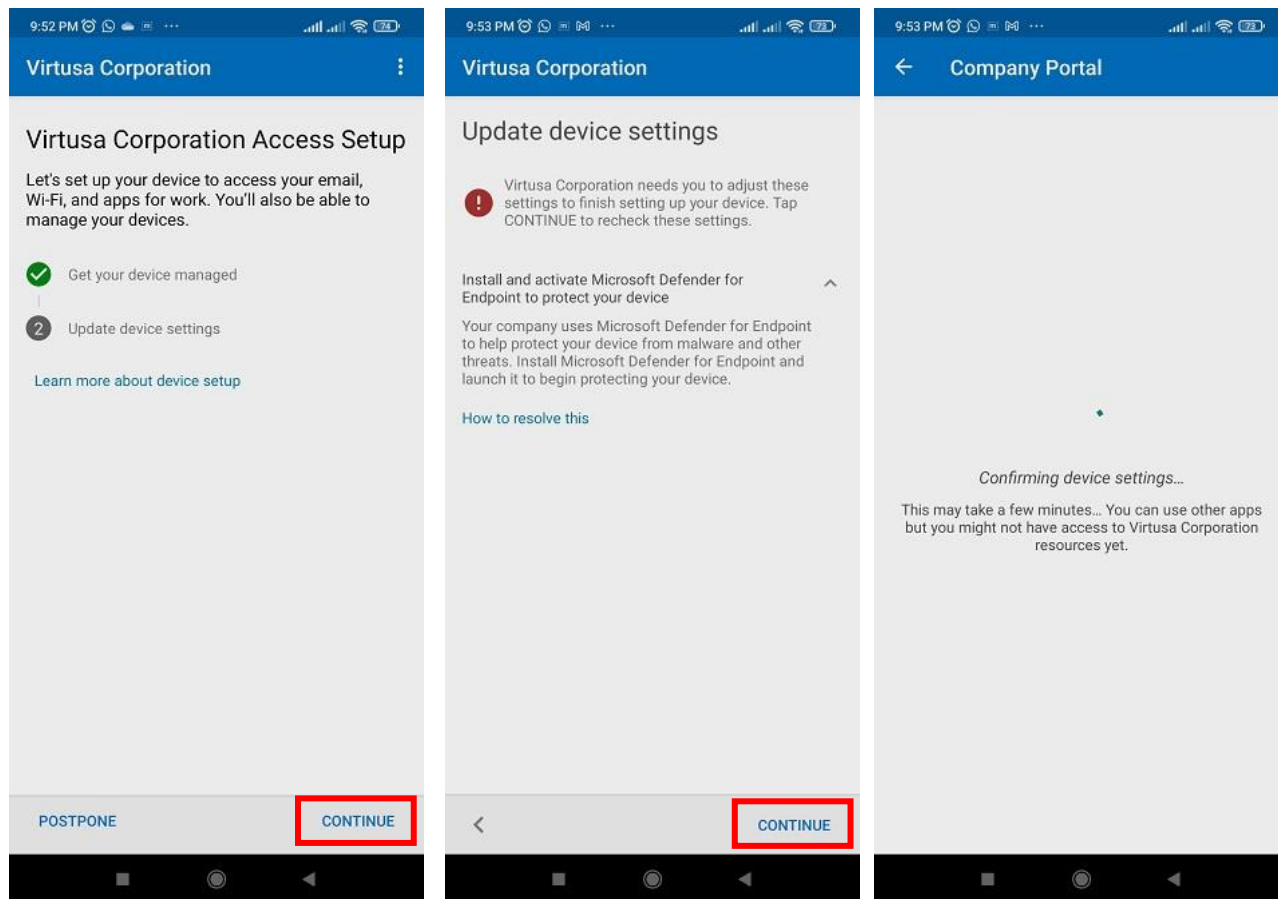

Note: Your device will finish setting up the device

Step 15: Tap on 'Continue' to proceed

Step 16: Again, tap on 'Continue' to proceed

Note: Your device will confirm device settings

Transform the way we work, learn, share and connect.

Step 17: Reopen the Company Portal app, re-enter your Virtusa account password and tap on 'Sign In'

Step 18: Tap on 'Continue' to proceed

Note: your device will check for security requirements.

You can now view available company mobile apps under 'Apps' or go to 'Devices' to find your device details

Step 19: You will now be prompted to install the default company apps (Authenticator, Teams, Outlook, CheckIn, Edge, Defender) on your mobile. Tap on the notification and install the app. Once installed, enter your Virtusa account credentials and tap on 'Sign In'

Step 20: Tap on 'Continue' to proceed

Step 21: Enter a PIN to setup PIN to access company mobile apps

Step 22: Re-enter the PIN to confirm PIN

Note: You can now open the app via your mobile. Continue installing the other default apps as prompted.
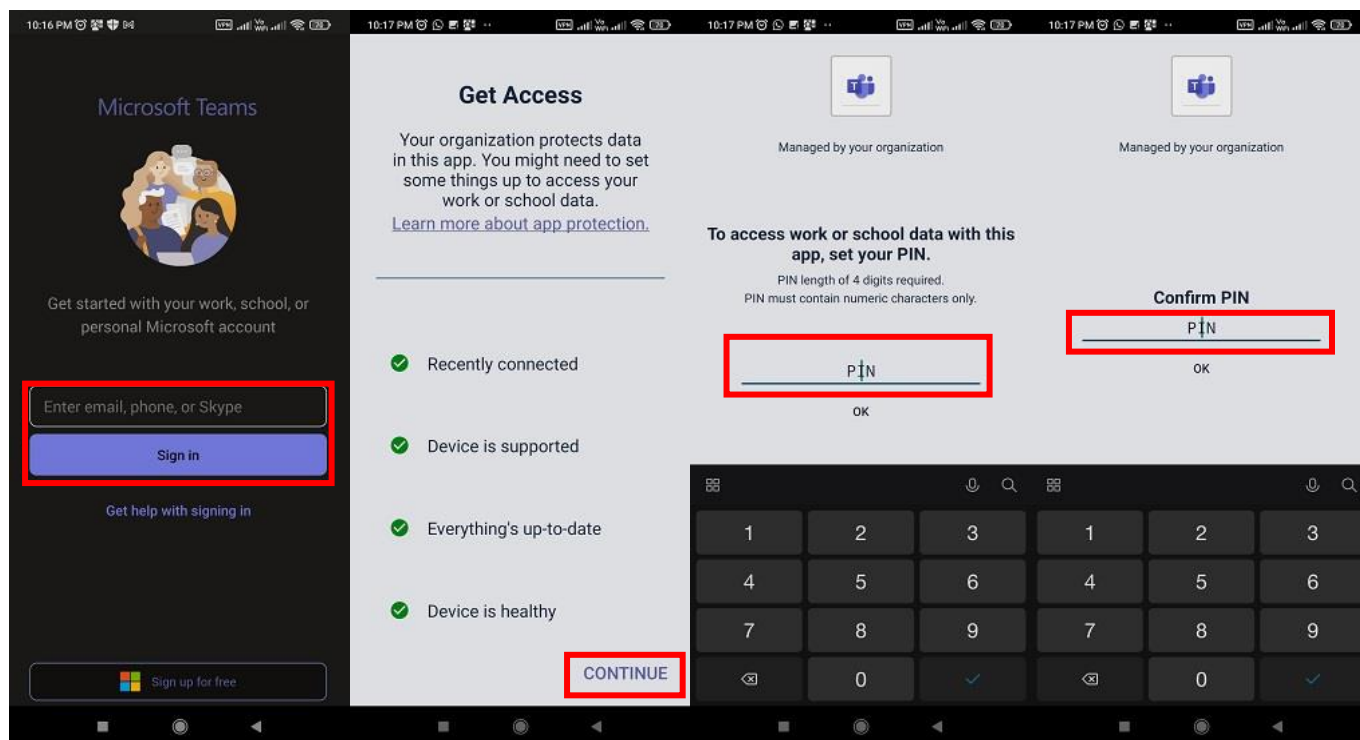

Note: You can also search for more apps in the Company Portal app and self-install any preferred apps via the Company Portal itself.
